What we are

Globus™ is a Technical Training Institute since 2005 to Train and Build Highly demanded Technicians in the field of Mobile phone Sales, Service and Repairing. With the industry growth, high demand in service and the lack of skilled technicians in India and Abroad, **Globus™** decided to develop our own training Institutes.

The first Centre opened in June 2005 in Kottakkal Kerala-India. We have Experienced Mobile phone service engineers with well knowledge in electronics & communication, to develop the curriculum and Train our Students. The 30 weeks course is held Monday through Saturday

We are an **ISO 9001-2008 CERTIFIED** institution, having the state-of-the-art infrastructure with highly professional faculty to provide excellent training for the students. Our curriculum is constantly revised and updated in accordance with the latest developments in the technology.

More than 200 Batches have already completed Training from **Globus™** and placed well and many of them are employed in the Gulf region. Most of our students either started their own business or well employed in several Service Centers in Kerala and other states. We are also catering the requirements of several Mobile Phone Service outlets all over Kerala by sending Technicians and also have regular enquiries from various parts of the country for providing technicians.

We can provide technicians on a regular basis for domestic and overseas employment.
